-Public Comments:

- Recommend posting discussions on websites for parents and attendees – can post minutes online, but artifacts must be requested
- IB will be all students, it is also being slowly implemented into K-5 (6-8 are not IB accredited)
- Homework too simple – common core strategies are being implemented, so having to go back to those basics, homework should be a reinforcement of what is being taught in the classroom

-Launch: Let's do what is best for the kids!!!
