-Public Comments:

- Parents concerned with 4<sup>th</sup> grade and teacher. Students crying and not wanting to come to class. Teacher is spending a lot of time on math, not much English. Lack of organization of teacher is a concern. Grades not reflecting what students have actually turned in. No accountability of checking homework. Lack of focus groups instead of just whole group. Eating lunch in front of students. Noise in classroom is affecting other classes. Lack of respect for teacher from students. Cameras put in classroom? Whole class losing recess for a few students.
